Why are we Riding?

The most obvious reason is that it's fun, especially if we can ride together with a few friends. Most riders would not find much to argue with if we claimed it's good for our mental health, so there's another good reason.

Eden Foundation is very happy to have been invited into this event and to be given the opportunity to let people know how we help people. This Covid-19 reality is making it pretty clear that it's stressing and distressing for just about everyone. How do you handle the loss of work? How do you deal with the fact that your normal social networking is in many cases forbidden? For some people, it's easier than others.

The Eden organization, as well as other mental health service providers, are finding that there's a very significant increase in demand for help and the system we pay for with our taxes is finding it very hard to keep up. That's where your support makes it possible for Recovery of Hope to offer their counselling services regardless of people's ability to pay. That's also where your support makes it possible for people who are having difficulty finding employment to find help through Segue.

If you can add a few bucks to the amount of the registration fee, we'd be additionally grateful.

Thank You
